Online Coupon Solution

WHAT IS COUPON CRAFT

Coupon Craft is an online coupon code and discount website solution with powerful features and awesome design.

FEATURES OF COUPON CRAFT

❖ Unique Deal URL

Admin or merchant can assign a unique SEO-friendly URL to every deal. This is very useful for search engines promotion.

FEATURES OF COUPON CRAFT

❖ Start/End Date & Time

Deals can be set to start in future - script will take care about showing them in the right order automatically. And it will also automatically hide it when the end time will be reached.

Coupon craft allows you to set a time zone for deals so you can feel safe about deals showing up at the right time for users around the world.

FEATURES OF COUPON CRAFT

❖ Coupon Buying Limits

Minimum Buyers Limit

How much buyers are required to "tip" the deal (make it available). If this minimum is not met until the deal end time it will be considered as "failed".

Maximum Buyers Limit

You can use this setting to set the top limit of the coupons which are allowed to be sold.

Coupons Per User Limit

You can even specify the amount of coupons which is allowed to be sold for a single buyer.

FEATURES OF COUPON CRAFT

❖ Cities and categories

Deals can be published to a single or multiple cities or even worldwide.

Deals can be added to categories.

FEATURES OF COUPON CRAFT

❖ Value, Discount, Price

Automatic Discount Calculation

You need to input deal value and price only - script will calculate discount percentage automatically.

Multiple Purchase Options

You can post so called "sub-deals" - that's when one deal contains several purchase options.

Custom Coupon Price

Sometimes you need to sell a coupon that doesn't include a service itself, but includes a discount only.

FEATURES OF COUPON CRAFT

❖ Reviews

You can add reviews to the deal and include review's author name and website.

Reviews can also be managed to control fake and spam feedbacks.

Thank You !
