WHAT IS TASK TEMPLE

Task Temple is a Task & Project Management Software built upon ideas and experiences from real life project cycle and interactions.

We realized that, Project Management software can do a world of good if there was a Team Environment. A way to keep it simple, clean and elegant. Task Temple is meant for Team Work. Create your team and manage your projects together.

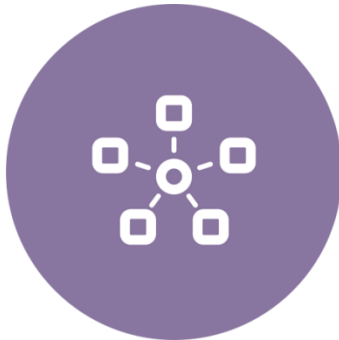

TASK TEMPLE'S KEY FEATURES

❖ My Dashboard

My Dashboard for quick and smoother operations in most interactive and user friendly way

❖ Project Management

Add and manage multiple projects. You can view, jump to discussion or remove a project from here.

❖ Team Management

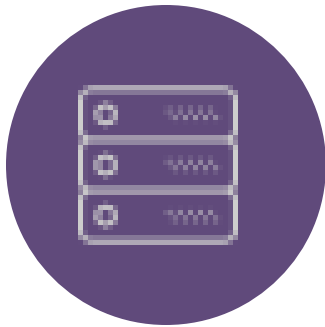

Create and manage your team easily. Search with email address or username of the person you want in your team and add.

TASK TEMPLE'S KEY FEATURES

❖ Responsive Design

Responsive designs to use it flawlessly on multiple devices and platforms.

❖ Task Management

Quickly access and browse through your current projects or take required actions. You may leave any project from this window when and if you need to.

❖ Milestone

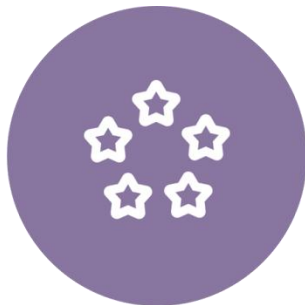

With Milestone features you can set Targets for the project contractors with a timeline and notify them by email.

TASK TEMPLE'S KEY FEATURES

❖ Discussion

It helps you keep connected with the contractors and team members. You and the other parties can attach any files needed to assist the progress of the project.

❖ Priority Queue

A great feature to set project priority, add items and rearrange them . It acts like a ROADMAP or a NOTES app or most importantly a PRIORITY QUEUE.

❖ ToDo

It can also be used as a ToDo application . Add new ToDo, set their priority and your team members will get notified!

THANK YOU!
